

12 AI SALES STAFF · PRE-BUILT

The Sales Loadout.

Prompt Cheat Sheet

The trigger phrase + best prompt template for each of the 12 sales agents.

Keep this open in a tab — or print it and pin it next to your screen.

#	AGENT	SLASH COMMAND	WHAT IT DOES
01	Follow-Up Sequence	<code>/follow-up</code>	5-touch follow-up plan for a quiet deal
02	No-Show Recovery	<code>/recover</code>	3-touch sequence for missed appointments
03	Sales Email Generator	<code>/email</code>	One polished sales email — quote, trade-in, thank-you
04	Objection Handler	<code>/objection</code>	3 framings + next step for any objection
05	Objection Prep	<code>/prep</code>	Predict top 5 objections before a meeting
06	Negotiation Coach	<code>/negotiate</code>	Tactical move-by-move negotiation map
07	Pipeline Review	<code>/pipeline</code>	Strategic read — which deals close, which die
08	Priority List	<code>/priorities</code>	Daily / weekly tactical action list
09	Proposal Builder	<code>/proposal</code>	Professional 1–2 page sales proposal
10	Customer Recap	<code>/recap</code>	Post-meeting structured capture + next steps
11	Cold Outreach	<code>/cold</code>	One sharp cold message — email / SMS / LinkedIn
12	Test Drive Follow-Up	<code>/test-drive</code>	The 48-hour post-test-drive message

Best prompt template — per agent

Copy, paste, fill the bracketed fields. The closer you stick to the structure, the sharper the output.

01 Follow-Up Sequence `/follow-up`

Need a follow-up sequence for [Customer]. They [last event] on [day], [days] ago. Vehicle/product: [details]. Last channel: [email/SMS/phone]. I'm [Your name].

04 Objection Handler `/objection`

Customer just said: "[exact quote]". Deal stage: [where we're at]. Customer type: [first-time / haggler / fleet / etc.]. Three framings please.

06 Negotiation Coach `/negotiate`

Negotiation map for [Customer]. Vehicle/product: [details]. Current state: I'm at \$[X], they want \$[Y], gap of \$[Z]. Already offered: [what]. I can authorise up to [\$N] on accessories. Time pressure: [deadline]. I'm [Your name].

07 Pipeline Review `/pipeline`

Pipeline review please. Open deals: [paragraph dump — name + product + stage + days quiet per deal]. Today is [day]. End of month is [N days] away. I'm [Your name].

09 Proposal Builder `/proposal`

Proposal for [Customer]. Product: [spec]. Drive-away: \$[X]. Trade-in: [details] at \$[Y]. Inclusions: [list]. Finance: [status]. Validity: [N] days. Delivery: [when]. I'm [Your name] at [Business].

12 Test Drive Follow-Up `/test-drive`

[Customer] test-drove the [vehicle] [when]. They reacted to: [specific thing]. Concerns raised: [what]. Discussed next steps: [what they said]. I'm [Your name]. Send via [SMS / email].

12 AI STAFF · PLUS OWNED CHATBOT

Customer Engagement.

Prompt Cheat Sheet

The trigger phrase + best prompt template for each of the 12 customer engagement agents. The headline — Website Chatbot Builder — replaces Chatbase, Tidio, Intercom Fin.

#	AGENT	SLASH COMMAND	WHAT IT DOES
01	Website Chatbot Builder ★	<code>/chatbot</code>	Complete chatbot stack: prompt + widget + proxy
02	Support Ticket Router	<code>/triage</code>	Classify, prioritise, route, draft acknowledgement
03	FAQ Agent	<code>/faq</code>	Answer OR maintain the FAQ knowledge base
04	Review Response Generator	<code>/review</code>	Public-facing replies — Google, Trustpilot, Yelp, App Store
05	Complaint Handler	<code>/complaint</code>	Defuse angry customers without being subservient
06	Refund / Return Negotiator	<code>/refund</code>	Evaluate + respond to refund requests
07	NPS / CSAT Follow-Up	<code>/nps</code>	Tuned follow-ups by segment — Promoter / Passive / Detractor
08	Onboarding Sequencer	<code>/onboard</code>	5–7 touchpoint onboarding sequence
09	Win-Back Campaign	<code>/winback</code>	Re-engage churned customers by archetype
10	VIP Customer Manager	<code>/vip</code>	Personal outreach — revenue / referral / strategic
11	Cancellation Save	<code>/save</code>	Handle in-the-act-of-leaving with ONE good offer
12	Knowledge Base Builder	<code>/kb</code>	Structure or write KB articles by reader intent

Best prompt template — per agent

01 Website Chatbot Builder [/chatbot](#)

```
Build me a chatbot. Business: [name + one-line]. Site: [URL]. Purpose: [support / lead capture / FAQ].  
Tone: [warm / professional]. Escalation email: [where]. Anthropic API key: yes. Top FAQs: [paste]. Off-  
limits: [topics]. Brand colours: [hex]. Hosting: [Cloudflare / Vercel].
```

02 Support Ticket Router [/triage](#)

```
Triage this ticket. Came in [time/channel]. From [customer + status]. [Paste verbatim content]. Available  
queues: [list]. SLA: [24h / etc].
```

05 Complaint Handler [/complaint](#)

```
Complaint. Customer: [name + LTV]. Channel: [email]. They wrote: "[verbatim]". What actually happened:  
[back-story]. Limit: [full refund / partial / nothing]. I'm [Your name].
```

11 Cancellation Save [/save](#)

```
Cancellation save. Customer: [name + tenure + plan + LTV]. Their reason: "[verbatim]". Usage: [heavy /  
declining]. Can offer: [pause / downgrade / nothing]. Channel: [chat / email]. I'm [Your name].
```

Universal patterns

Drop in the tone framework

Paste your Tone Framework (Formality 1–5, Warmth 1–5, Authority 1–5, Directness 1–5) at the top of every project so output is calibrated to your voice.

Pair agents with plugins

Complaint Handler + Escalation Matrix · Cancellation Save + Churn Signals · Review Generator + Review Handling Playbook.

Customer context first

Always lead the prompt with WHO the customer is. Generic prompts produce generic output.

Iterate, don't restart

If output isn't right: "shorter", "less formal", "more direct", "drop the discount offer". Next iteration is usually right.
